The Asia Pacific Accreditation Cooperation Incorporated (APAC) is the regional accreditation cooperation of accreditation bodies for the Asia Pacific region. It is recognised by the International Accreditation Forum (IAF) and the International Laboratory Accreditation Cooperation (ILAC).

APAC’s primary role is to manage and expand a mutual recognition arrangement (MRA) among accreditation bodies in the Asia Pacific region. The MRA facilitates the acceptance of conformity assessment results (e.g. test reports, test certificates, inspection reports, and certification) across the region and with other regions around the world. Conformity assessment results that are produced by conformity assessment bodies (CABs) that have been accredited by one APAC MRA signatory are accepted by all the other APAC MRA signatories. This mutual recognition and acceptance of conformity assessment results reduces the need to undertake duplicate testing, inspection or certification, thus saving time and money, increasing economic efficiency and facilitating international trade.
